

SUMMARY

Skilled React Native Developer with 2 year of experience building and deploying cross-platform mobile apps using React Native and Expo. Possess a strong understanding of JavaScript and Typescript, and mobile development concepts. Adept at creating reusable UI components, implementing native functionality, and optimizing app performance for both Android and iOS platforms. Excellent problem-solving and communication skills with a proven ability to collaborate effectively in agile development teams. Eager to learn and apply the latest industry trends and best practices. Committed to delivering high-quality code and exceeding user expectations. Seeking an opportunity to leverage my skills and contribute to innovative software development.

EDUCATION

COMSATS University Islamabad

Bachelor's Degree in Software Engineering
2019 – 2024

Relevant Courses

- Data Structures and Algorithms
- Web Technologies
- Mobile Application Development
- Operating Systems
- DevOps
- Software Testing

SKILLS

- Strong understanding and experience in React Native for cross platform development.
- Command in Nodejs and Django for RESTful API Development.
- Comprehensive work experience in React, Next.js, and Laravel for web development.
- Command in database management in Firebase, MongoDB, PostgreSQL, and SQLite.
- Experience in software version control platforms like Git, GitHub, and Gitlab.
- Comprehensive Knowledge in DevOps tools like docker and Kubernetes.
- Command in developing automated Software testing using Jira, Selenium, and Cypress,
- Working knowledge in various system operating environments like UNIX/Linux, Windows, and MacOS.

Additional

Languages: C++, Java, JavaScript, TypeScript, Python, PHP

Dev Tools: Git, VS Code, Insomnia, Firebase

Front-end: React, Next.js, React Native, Laravel

Back-end: NodeJS, Django, Express.JS

PROFESSIONAL EXPERIENCE

Mobile Application Developer

SageTeck | May 2024 - Present

- Developed and deployed Tuneup Golf (the all-in-one golf learning app) using React Native, Expo, and JavaScript.
- Implemented various native features, including camera, device file sharing, device gallery access, screen recording, push notifications, video player, etc.
- Worked with the backend development team to implement APIs on the mobile application end.
- Used new technologies like Zustand and React-Native-MMKV for state management and persistence in the application.
- Contributed to open-source by fixing bugs and adding new features to an Expo package (expo-screen-recorder).

Freelancing

Fiverr | 2022 - Present

- Developed cross-platform mobile apps with React Native, Expo, and JavaScript or TypeScript, integrating backend services with Node.js and Django.
- Built and optimized RESTful APIs, implemented data structures and algorithms, and wrote Arduino scripts for IoT applications.
- Designed UI/UX components, conducted code reviews, and assisted in software requirements gathering and documentation.

Projects

Butterfly Effect Universe | 2023

butterflyeffectuniverse.org

- Worked as back-end developer using Node.js with Typescript.
- Conducted thorough feasibility analysis and reported feedback to design team for risk analysis and cost estimations.

Tankerwala | 2023

FYP

- Developed Mobile Application using React Native with Expo.
- Implemented IoT device functionality to real-time monitor water storage level in the mobile app.
- Added user-based mobile interfaces, water tanker ordering system (like Uber drives), in-app chatting system using web sockets, and customer support functionalities.
- Developed admin panel for customer support personal using React.
